Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Large type / large print edition. Language: English. Brand new Book. This premium quality large print volume includes the complete and unabridged text of H. G. Wells' original science fiction classic -- The First Men in the Moon -- an enduring and still-popular work which exerted a huge influence on the science fiction genre which continues today. This freshly edited and newly typeset edition features a large 7.44"x9.69 page size and is printed on heavyweight bright white paper with a fully laminated cover featuring an original full color design. Also included in this volume are page headers and an introductory biographical sketch discussing Wells' life, work and continuing literary significance. Herbert George Wells (1866-1946), was born to shopkeepers who had previously been domestic servants. When an injury ended his father's income as a professional cricketer, Wells' parents, on the brink of poverty, apprenticed him to...
